SYLACAUGA UTILITIES BOARD
NATURAL GAS EXTENSION POLICY

ATTACHMENT C
NATURAL GAS EXTENSION AND FINANCING PROGRAM POLICY

Prospective customers or consumers of natural gas, including developers or owners of real estate subdivisions who desire to have existing gas lines extended in order to provide natural gas service at locations where lines do not presently extend, shall make a written application therefore at the office of the Utilities Board of the City of Sylacauga and the Manager will, within a reasonable time thereafter, cause an investigation to be made as to the feasibility, necessity and cost of such natural gas line extension and if he determines that the same is feasible and desirable, the construction of such extension will be authorized, subject to the following conditions:

(A) The tap fee as listed in Section 2 will cover the cost of installing the service line from the main to the meter, up to 150 feet in length. For a service line in excess of 150 feet, the applicant will be charged an additional $1.50 per foot.

(B) If the applicant does not initiate gas service within sixty (60) days from the completion date of the service line installation, said applicant will be billed and become responsible to pay for the entire cost of the service line installation less any connection fees already paid.

(C) If the applicant does not install the appliances for which they are receiving a waiver within sixty (60) days from the completion date of the service line installation, said applicant will be billed and become responsible to pay for the waived amount.

(D) Applicants with approved credit can request financing through the Board for up to $ 5,000, while funds are available. The cost of installing the gas line from the meter to and throughout the house or building and preparing it for natural gas use, may be financed. In addition, any of the appliances that qualify for waivers may be financed. The tap fees, service charges and deposit cannot be financed.

The applicant is required to hire a State of Alabama Licensed and Bonded Master Gas Fitter to install the gas line from the meter to and throughout the house or building.

SYLACAUGA UTILITIES BOARD
NATURAL GAS RATE SCHEDULES

PURCHASED GAS COST ADJUSTMENT

SUB Natural Gas Rate Schedule No. 5 **Effective October 1, 2008**
Replaces SUB Resolution No. 01-02

The monthly Purchased Gas Cost Adjustment ("**PGA**") factor calculated pursuant to this Rate Schedule No. 5 is applicable to all natural gas purchases from the Sylacauga Utilities Board (the "**SUB**") by Customers receiving natural gas service pursuant to SUB Natural Gas Rate Schedule Nos. 1 and 2 and 4. The monthly PGA factors will initially be based on estimated costs and sales and later adjusted for actual costs and sales.

The PGA formula is:

$$\mathbf{PGA = [(A + T - B) / C - D)] - \$7.05}$$

Where:

A is the SUB's total monthly costs associated with its natural gas purchases including, but not limited to, transportation charges, storage charges and charges for natural gas purchases;

T is the monthly adjustment to true-up projected costs and sales to actual costs and sales:

B is the revenues recovered from the commodity rate charges to customers electing the alternative pricing provision of Natural Gas Rate Schedule Nos. 3:

C is the total SUB Mcf sales; and

D is the Mcf sales to customers electing the alternative pricing provisions of Natural Gas Rate Schedule Nos. 3.

The True-Up formula is:

$$\mathbf{T = R - (E \times PGA)}$$

Where:

R is the actual R&C revenue requirement; and
E is the actual R&C Mcf sales.

Section 1:

SYLACAUGA UTILITIES BOARD
NATURAL GAS RATE SCHEDULES

PURCHASED GAS COST ADJUSTMENT

The SUB will make the following computations on the 5th of the current billing month.

$$PGA_1 = [(A_1 + T - B_1) / (C_1 - D_1)] - \$7.05$$

$$R_1 = PGA_1 \times (C_1 - D_1)$$

$$E_1 = (C_2 - D_2)$$

$$PGA_2 = (R_1 / E_1)$$

Where:

PGA_1 is the factor used to compute the projected R&C revenue requirement;

A_1 is the projected cost of gas;

T is the true-up factor calculated from the actual cost and sales data for the prior billing month;

B_1 is the projected industrial sales revenues for the bills rendered on the 1st, 10th and 20th of the current billing month;

C_1 is the projected total Mcf sales for the bills rendered on the 1st, 10th and 20th of the current billing month;

D_1 is the projected industrial Mcf sales for the bills rendered on the 1st, 10th and 20th of the current billing month;

R_1 is the projected R&C revenue requirement;

E_1 is the projected R&C sales revenue for the 10th and 20th of the current billing month and the 1st of the next succeeding billing month;

C_2 is the projected total Mcf sales for the bills rendered on the 10th and 20th of the current billing month and the 1st of the next succeeding billing month;

Section 1:

D_2 is the projected industrial Mcf sales for the bills rendered on the 10th and 20th of the current billing month and the 1st of the next succeeding billing month; and

PGA_2 is the PGA factor billed on the 10th and 20th of the current billing month and the 1st of the next succeeding billing month.

The SUB will make the following computations on the 20th of the current billing month.

$$\mathbf{PGA_3 = [(A_2 + T - B_2) / (C_3 - D_3)] - \$7.05}$$

$$\mathbf{R_2 = PGA_3 \times (C_3 - D_3)}$$

Where:

PGA_3 is PGA factor used to compute the actual R&C revenue requirement;

A_2 is the actual cost of gas;

T is the true-up factor calculated from the actual cost and sales data for the prior billing month;

B_2 is the actual industrial sales revenues;

C_3 is the actual total Mcf sales for the bills rendered on the 1st, 10th and 20th of the current billing month;

D_3 is the actual industrial Mcf sales for the bills rendered on the 1st, 10th and 20th of the current billing month; and

R_2 is the actual R&C revenue requirement.

The SUB will make the following computations on the 1st of the next succeeding billing month.

$$E_2 = (C_4 - D_4)$$

$$T = R_2 - (E_2 \times PGA_3)$$

Where:

PGA_3 is PGA factor used to compute the actual R&C revenue requirement; and

E_2 is the actual R&C Mcf sales during the prior billing month.

Gas Tap Fee

$ 550.00

If the customer agrees to install a natural gas water heater, $ 300 of the $ 550 tap fee will be waived. After verification of the installation of the natural gas water heater, the Board will provide a $300 rebate to offset a portion of the cost of the water heater. If the customer also agrees to install any of the following natural gas appliances the remaining portion of the tap fee will be waived: Gas Furnace/Primary Heat, Gas Range, or Gas Dryer.
